Awoke by a scream
My mind in torment
Night terror's lover
Looking around
Your nowhere near
Lost to misery
A memory of pain

The dead of night
Brings more pain
Suffering by the minute
Luna laughing at the folly
Of what used to be

A razor's edge brings no solace
To life's horror
The sun's warmth
Chilling me ever more
A soulless existence
Roaming oblivion

The dead of night
I soundlessly scream
Voice torn away
From endless calling
For a love that will never return

Searching no longer
Living no longer
Dying no longer
Just a shadow in...
The dead of night
