My heart is talking, telling me things
so if I don't listen to my heart
I will regret it for the rest of my life.

I feel my heart talking to me
telling me things that I need to know
talking to me and telling me things
I feel my heart it's talking to me.

When I walk around in town
I feel I'm attracted to lots of women
but which ones should I do?
I'm really spoiled for choice
but really I should go with what my heart is telling me
because if I don't listen to my heart
I could regret it for the rest of my life
so that's where my heart comes in
talking to me giving me advice on life.

I feel my heart talking to me
telling me things that I need to know
talking to me and telling me things
I feel my heart it's talking to me.

I'm still walking around in town
wondering what to do
my heart is telling me one thing
but in my mind, should I listen to what my heart is saying
or if I don't I could get turned away
I must give my heart a chance
to talk to me and tell me where I'm going wrong.

I feel my heart, it's talking to me.
